HIGHLIGHTS

- Experienced in building scalable web applications using best practices in a continuous delivery environment
- Highly competent in developing exceptional quality UX/UI components
- Excellent communication skills with the ability to adequately explain technical aspects to people who are not technically inclined
- Strong ability to build and maintain relationships with various stakeholders in a team environment

SKILLS

JavaScript | Typescript | TailwindCSS | Redux | Docker | Jest | Storybook | Git | Jira | User Interface | ReactJS | NextJS

EXPERIENCE

SOFTWARE DEVELOPER II | Superna (Remote)

JAN 2024 – PRESENT

- Develop high quality User Interface (UI) and Front-end components for Superna's products to perfectly match the design with ReactJS and TailwindCSS.
- Perform code reviews and write unit testing.
- Research software development trends to stay current and apply those where necessary.
- Identify any risks of shortcomings or bugs in the software.
- Write and update technical documentation.
- Create Ansible playbooks along with Terraform modules to create and update AWS Deployments.
- Build and deploy Docker containers in a Kubernetes environment with custom Helm charts to ensure stable deployment across environments.
- Train new colleagues in company processes and coding practices.

SOFTWARE DEVELOPER I | Superna (Remote)

AUG 2022 – JAN 2024

- Design, develop, test, deploy and maintain high quality software systems.
- Implement Redux and Redux-Toolkit to manage product state across the platform.
- Implement new designs from the design team.
- Develop and maintain excellent working relationships with various stakeholders including UX/UI designers and QA.
- Implement Jest and Playwright testing to ensure that the platform functions without issue.
- Implement Storybook to streamline UI development, testing, and documentation.

FULL STACK WEB DEVELOPER | Kellen Wiltshire Web Development (Kingston, ON)

JAN 2021 – AUG 2022

- Built functional and responsive websites with the latest technologies such as React, NextJS, Typescript, and traditional HTML/CSS to meet Client expectations for performance.
- Created beautiful and easy to use UI to bring the Clients vision to life using TailwindCSS, Emotion Style Components, StorybookJS, and CSS.
- Created secure Backend services and databases using Node, ExpressJS, PostgreSQL, NestJS, and Strapi.
- Experienced working with Shopify and Squareup API to create merchant stores and process payments.
- Experienced in building scalable web applications using best practices in a continuous delivery environment.

EDUCATION

BACHELOR OF LEGAL STUDIES | Ontario Tech University

2013
